## Fellow Breeders:

This herd was started in 1949 with the purchase of a heifer in calf from H. B. Javens. She was Orange Blossom 2nd, a direct descendant of Climsland Orange Blossom 7th, imported by H. R. H. Edward, Prince of Whales, for his ranch at High River, Alberta.

The old cow Rose Blossom, selling as Lot 2 and pictured above, is a granddaughter. Her sire, Scott Monarch 23B, is out of Scott Monarch Joyce 19Z, the highest milk producing cow (over 8000 lbs.) ever raised at the Scott Experimental Farm. Since all of the cows in the herd but one (Schoolview Sylvia 2nd, pictured below) are descendants of this family they are naturally good milkers and no nurse cows are needed.

Sincerely,  
Donald Scott

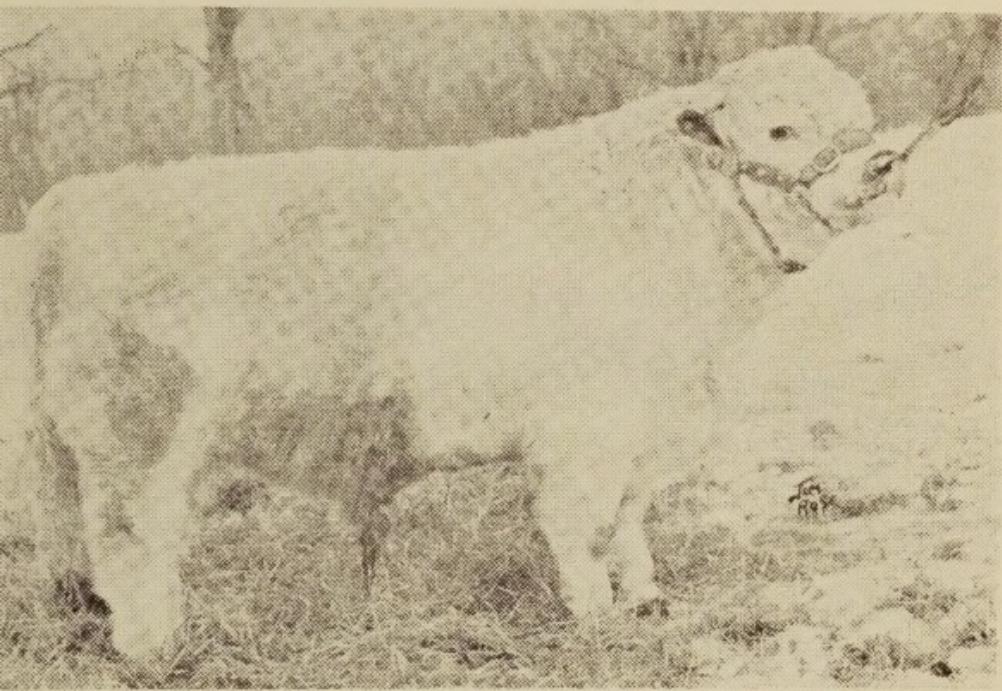

**SCHOOLVIEW SYLVIA 2nd—Lot 17**

Five week old bull calf at side.

## Donald Scott Shorthorn Dispersal

This Donald Scott Dispersal includes many daughters and granddaughters of Scott Monarch 23B, the foundation sire. There are several daughters of Gold Ring's Lad, a great breeding bull whose daughters have mostly classified AA. Two AA and one A daughters of Park Lane Coronach's Parade are in the herd. The younger females are by either Aston Villa Master 111th or Aston Villa Master 121st, both sons of Hugh Strong's Scottdale Pirate. The 111th sired Alex Rennie's herd sire and Gerald Hanington is using a son of the 21st.

### LOUADA MINSTREL—Lot 1
